Discovery

الاكتشاف — من هي دار البهجة؟

THE CLIENT · THE NAME · THE PROMISE · THE PILLARS

PART I · DISCOVERY

The brief we were given

الموجز الذي انطلقنا منه

Create a complete visual identity for an authentic Moroccan restaurant — one that feels **hand-crafted and soulful**, yet disciplined enough to run across signage systems, packaging lines, uniforms and a delivery fleet without losing a single thread of its heritage.

١ **Rooted, not costumed** أصالة لا تقليد

Real Moroccan craft language — zellige, arabesque, calligraphy — never tourist clichés.

٢ **Bilingual by birth** ثنائية اللغة

English leads internationally; Arabic is the origin of the name and must live inside the mark itself.

٣ **Built to scale** قابلة للتوسع

One identity that survives a wax seal, a shopfront, a rollup banner and a motorbike box.

٤ **Joy as strategy** البهجة استراتيجية

Every touchpoint should feel like being welcomed into a Moroccan home on a feast day.

PART I · DISCOVERY — THE NAME, WORD ONE

“Dar” — the house

دار — البيت الذي يحتضن ضيوفه

*In Morocco a **dar** is not just a building. It is the courtyard house — the riad — where the family gathers, the table is always long, and the door is always open.*

Choosing “Dar” instead of “restaurant” repositions the entire brand: guests are not customers, they are **invited into a home**. This single word drives the ornamental frame of the logo — an architectural doorway that shelters everything inside it.

The House · Dar الدار

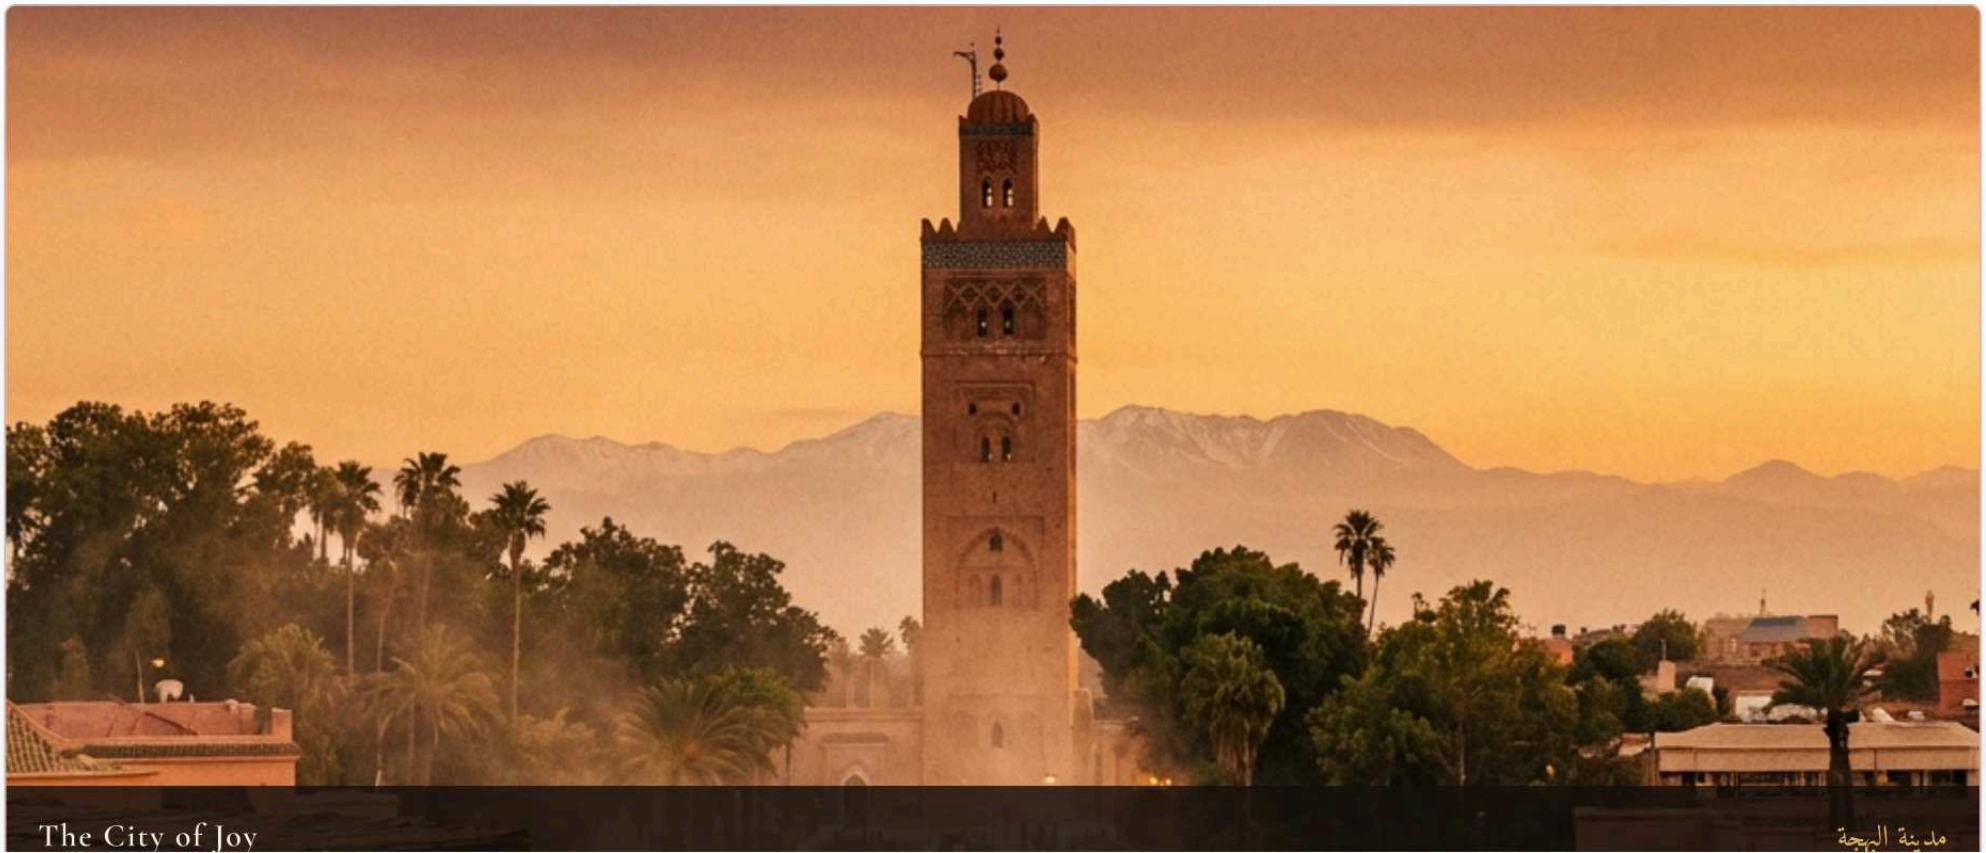

PART I · DISCOVERY — THE NAME, WORD TWO

“Albahja” — the joy

البهجة — لقب مراكش نفسها

Albahja *means joy — and for centuries it has been the beloved nickname of Marrakech itself:* **Madinat al-Bahja, the City of Joy**.

The name is therefore a double signature: it promises an emotion *and* names the city of origin in the same breath. That is why “MARRAKECH” sits inside the lockup in saffron gold — not as an address, but as a birthplace. مدينة البهجة — مراكش

The City of Joy

مدينة البهجة

PART I · DISCOVERY — POSITIONING

One sentence we never break

جملة واحدة لا نحيد عنها

"From the rich culture of Morocco to your table — **Dar Albahja is more than a name, it's an experience.**"

This is the sentence written in pencil at the bottom of our very first sketch board, and it survived every round of refinement untouched. Everything you are about to see — frame, tagine, steam, calligraphy, color — exists to keep this promise. من ثقافة المغرب الغنية إلى مائدتكم

The Experience التجربة

Four pillars hold the house

أربع ركائز تحمل الدار

01 **HERITAGE**

التراث

Moroccan craft, geometry and memory.

02 **AUTHENTICITY**

الأصالة

Rooted in real cuisine and cultural detail.

03 **HOSPITALITY**

الضيافة

The warmth of a Moroccan home.

04 **JOY**

البهجة

A welcoming experience at every touchpoint.

Heritage — التراث

Centuries of Moroccan craft - zellige tilework, carved cedar and hammered brass - translated into a logo built from the same geometric grammar. Heritage gives the mark discipline, not decoration.

02

Inspiration

الإلهام — أربعة مصادر مغربية

ARCHES · ZELLIGE · ARABESQUE · THE TAGINE — STUDIED BY HAND, IN PENCIL

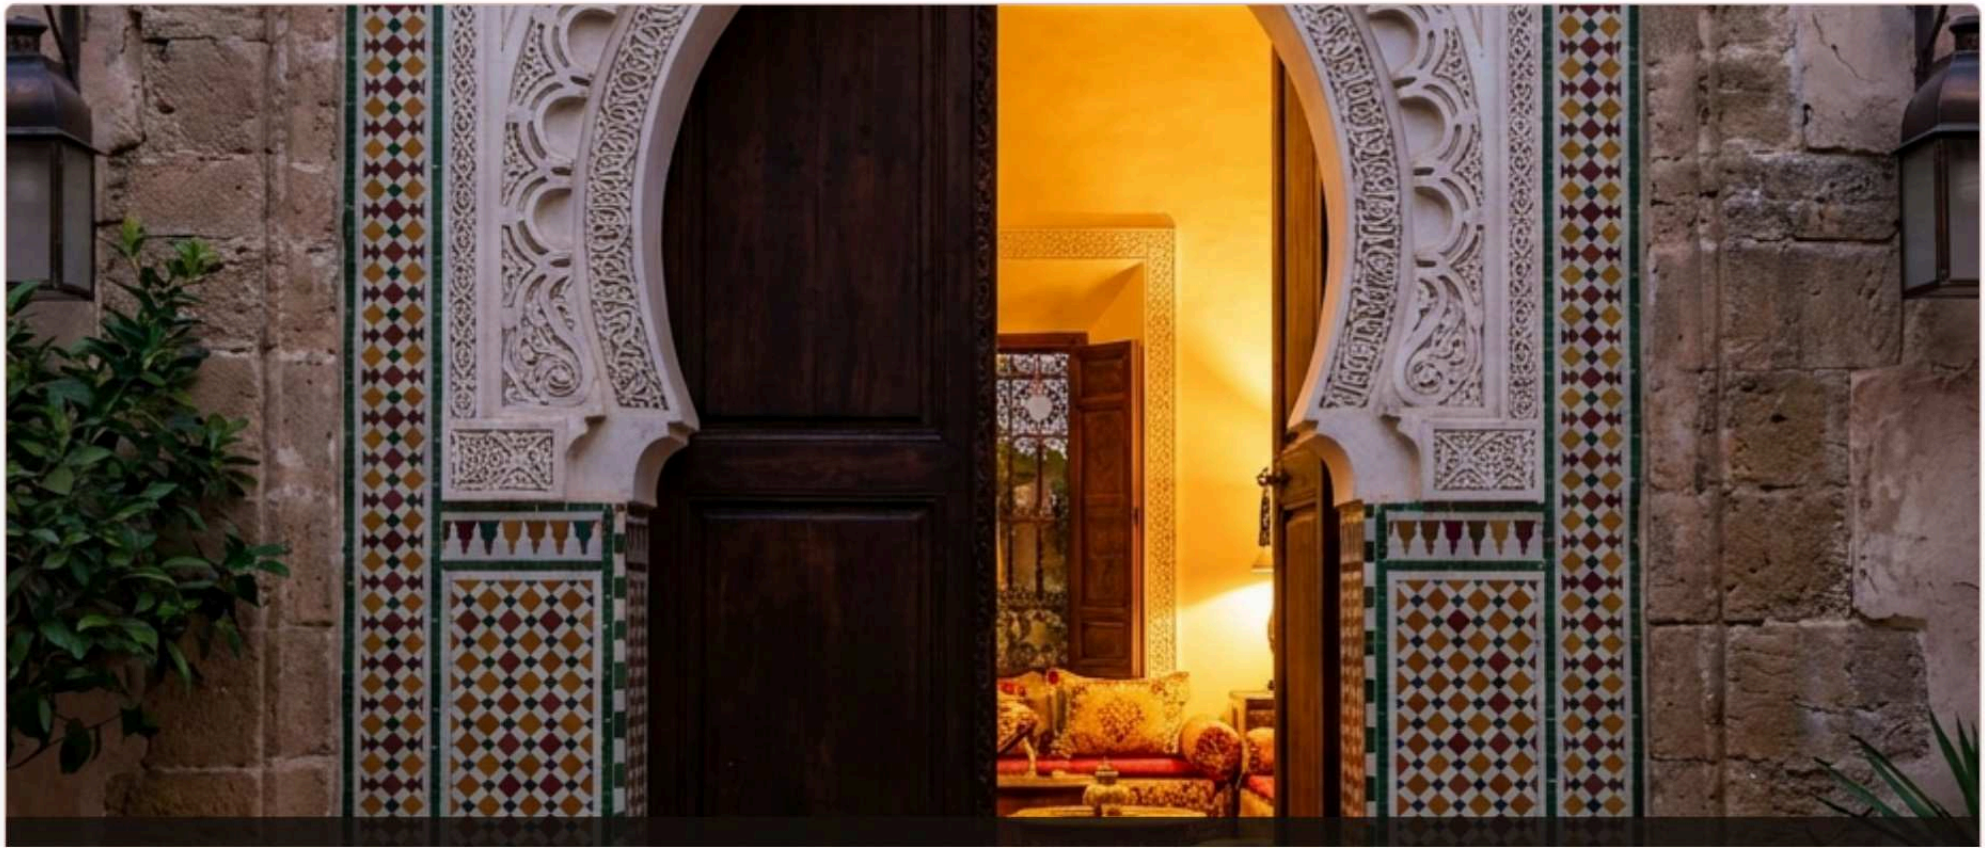

PART II · INSPIRATION — SOURCE 1 OF 4

Horseshoe arches

أقواس حدوة الفرس — عمارة خالدة

The doorways of the medina — horseshoe and ogee arches that have framed Moroccan welcomes for a thousand years. We drew them first because the logo needed a **threshold**: a shape that says *enter, you are expected*.

- ✓ Becomes the ogee frame of the final emblem — يصبح إطار الشعار
- ✓ Timeless architecture → timeless identity — عمارة خالدة

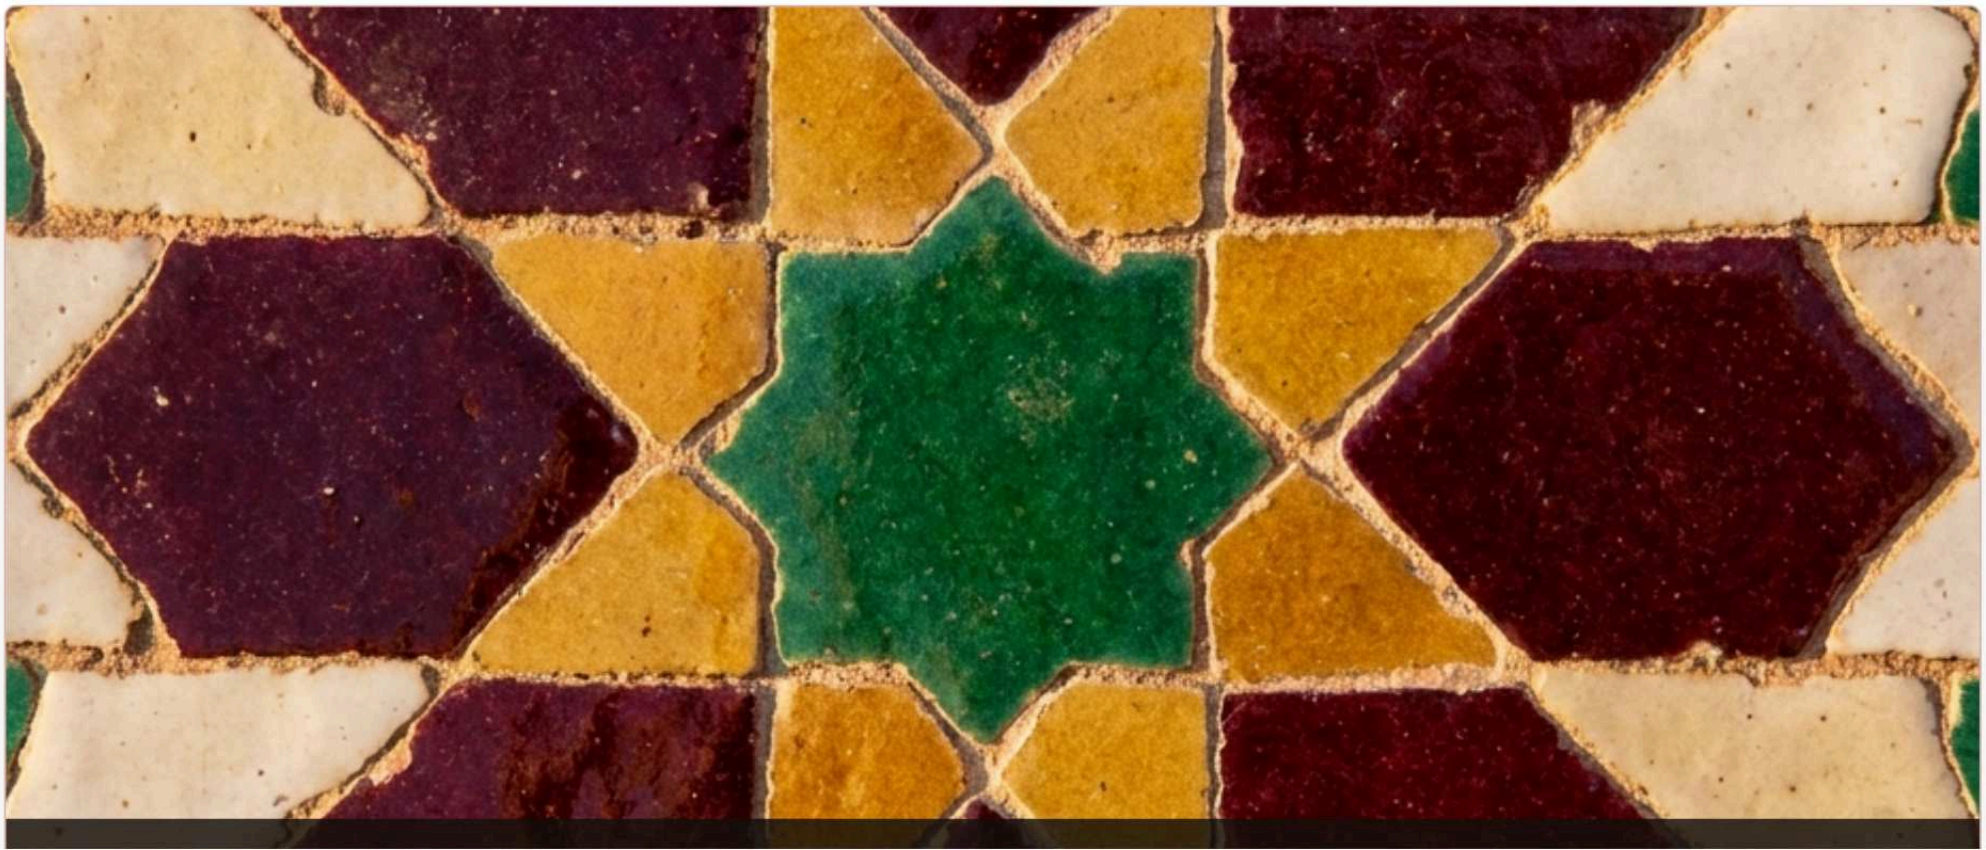

PART II · INSPIRATION — SOURCE 2 OF 4

Zellige geometry

هندسة الزليج — توازن وانسجام

Hand-cut tile mosaics whose eight-point **khatam stars** repeat to infinity — harmony and balance made mathematical. This is the grammar behind every star motif and lattice band you will find inside the mark.

- ✓ Becomes the eight-point stars of the wreath — نجوم الشعار
- ✓ Geometry gives the brand its discipline — الانضباط الهندسي

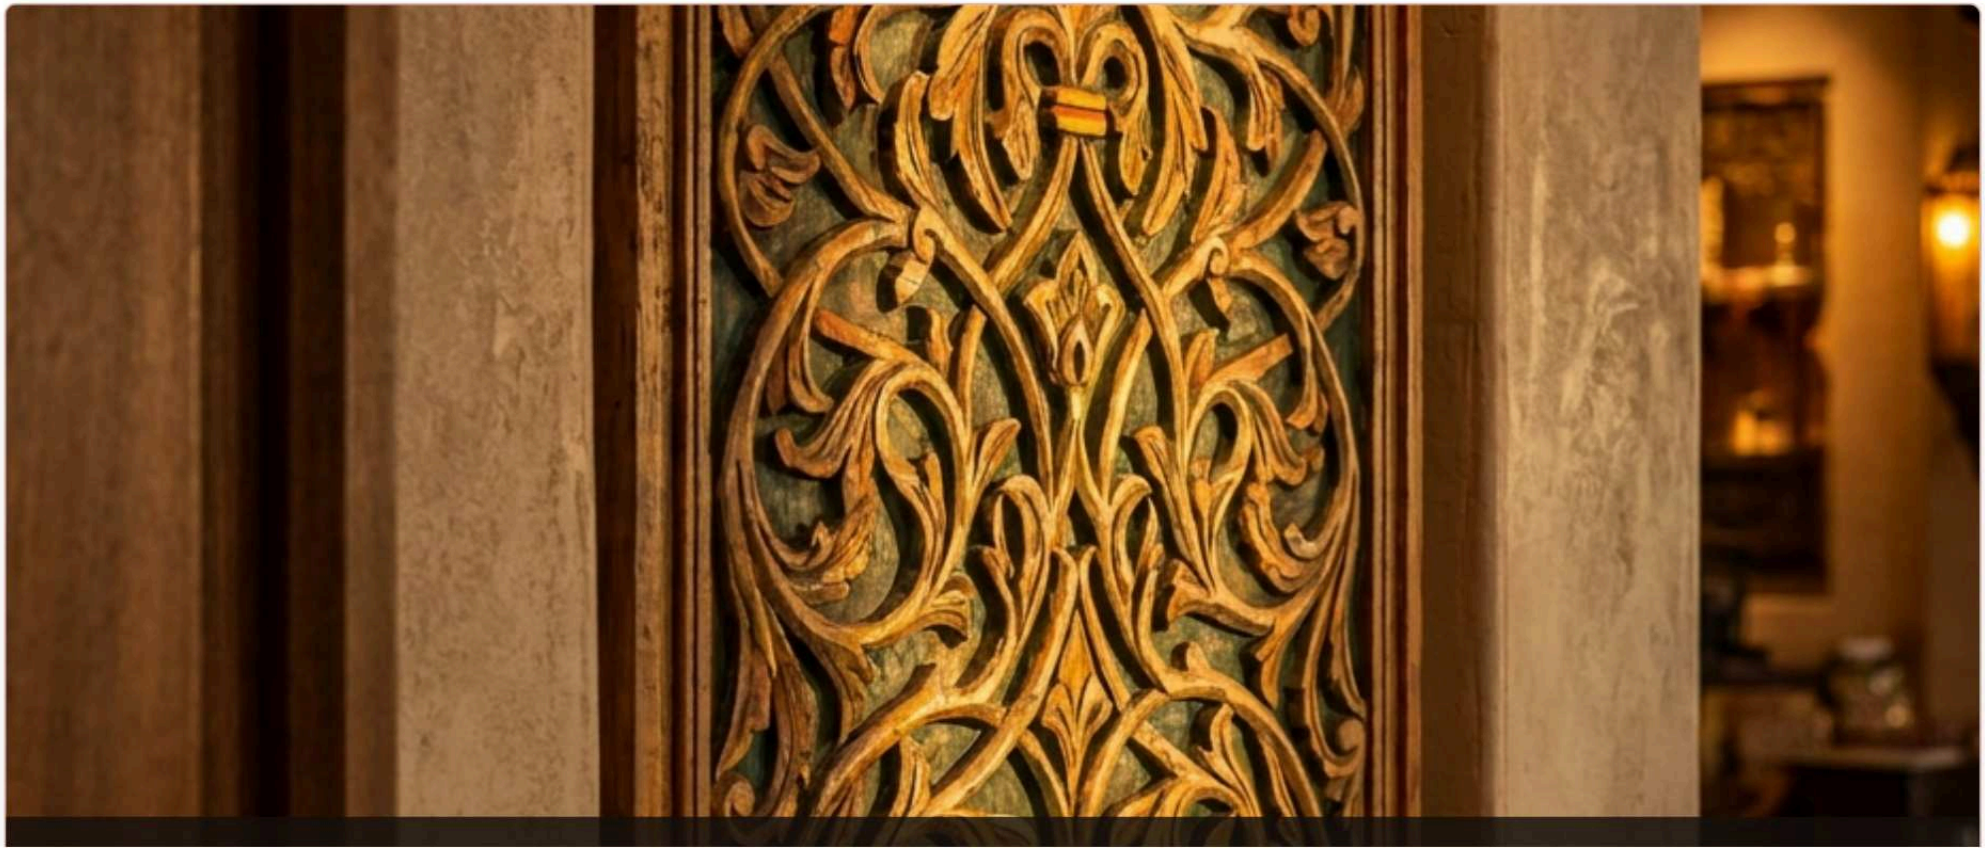

PART II · INSPIRATION — SOURCE 3 OF 4

Arabesque foliage

أوراق الأرابيسك — نماء وازدهار

Scrolling vines and leaves — nature formalized into ornament, the symbol of **growth and prosperity**. In the final logo the arabesque becomes a living wreath in Medina Green, wrapping the emblem the way gardens wrap a riad courtyard.

- ✓ Becomes the green wreath of the emblem — إكليل الشعار الأخضر
- ✓ Nature & prosperity, drawn not stated — نماء وازدهار

PART II · INSPIRATION — SOURCE 4 OF 4

The tagine

الطاجين — نكهات أصيلة وكرم الضيافة

Morocco's most beloved vessel — the conical clay pot that slow-cooks generosity itself. Of every symbol we studied, only the tagine says **food, gathering and heritage** in a single silhouette. It earned the center of the logo.

- ✓ Becomes the hero icon at the heart of the mark — الأيقونة البطلة
- ✓ Its steam becomes the golden crown — بخاره تاج ذهبي

The Sketch

الرسم — كل شعار عظيم يبدأ بقلم رصاص

EIGHT DOCUMENTED STAGES · FROM ROUGH THUMBNAIL TO REFINED MARK

PART III · THE SKETCH — THE DOCUMENT

Everything begins on one board

كل شيء بدأ على لوحة واحدة

Before a single vector was drawn, the whole identity was worked out in pencil: inspiration studies, core elements, the color story and the design evolution — all on this presentation board. The next pages walk through it **piece by piece**.

The complete development board - shown in full below.

لوحة التطوير الكاملة معروضة أدناه

PART III · THE SKETCH — EIGHT ELEMENTS ON PAPER

Eight core elements, studied one by one

ثمانية عناصر أساسية — دُرست عنصراً عنصراً

Before composition, each ingredient of the mark was drawn on its own — so every line would later earn its place. These eight studies became the visual vocabulary of the whole identity.

PART III · THE SKETCH — THE COLOR STORY

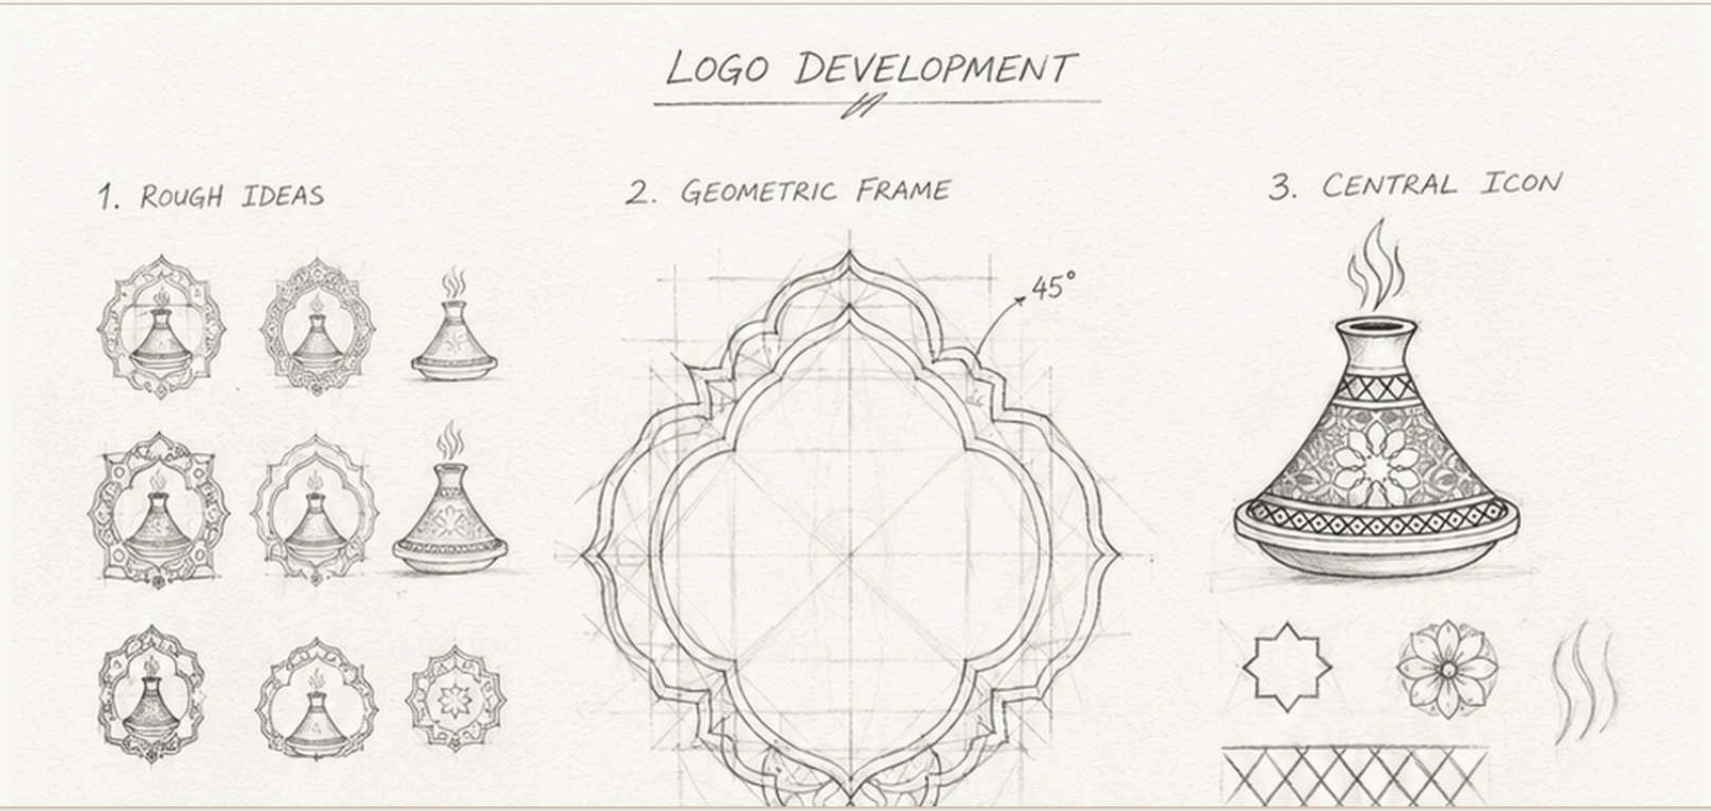

Color was chosen before the computer

الألوان اختيرت قبل الحاسوب

Three pigment swatches scrubbed straight onto the board: **maroon** for heritage, elegance and pride · **green** for nature, harmony and growth · **gold** for warmth, luxury and tradition.

The pencil note beside them reads: *"a palette inspired by Morocco's landscapes, tiles and timeless crafts."* The digital palette in Part V is simply this page, measured. لوحة ألوان من مناظر المغرب وبلاطه وحرفه الخالدة

PART III · THE SKETCH — THE WORKING DOCUMENT

Nine stages, fully documented

تسع مراحل موثقة بالكامل

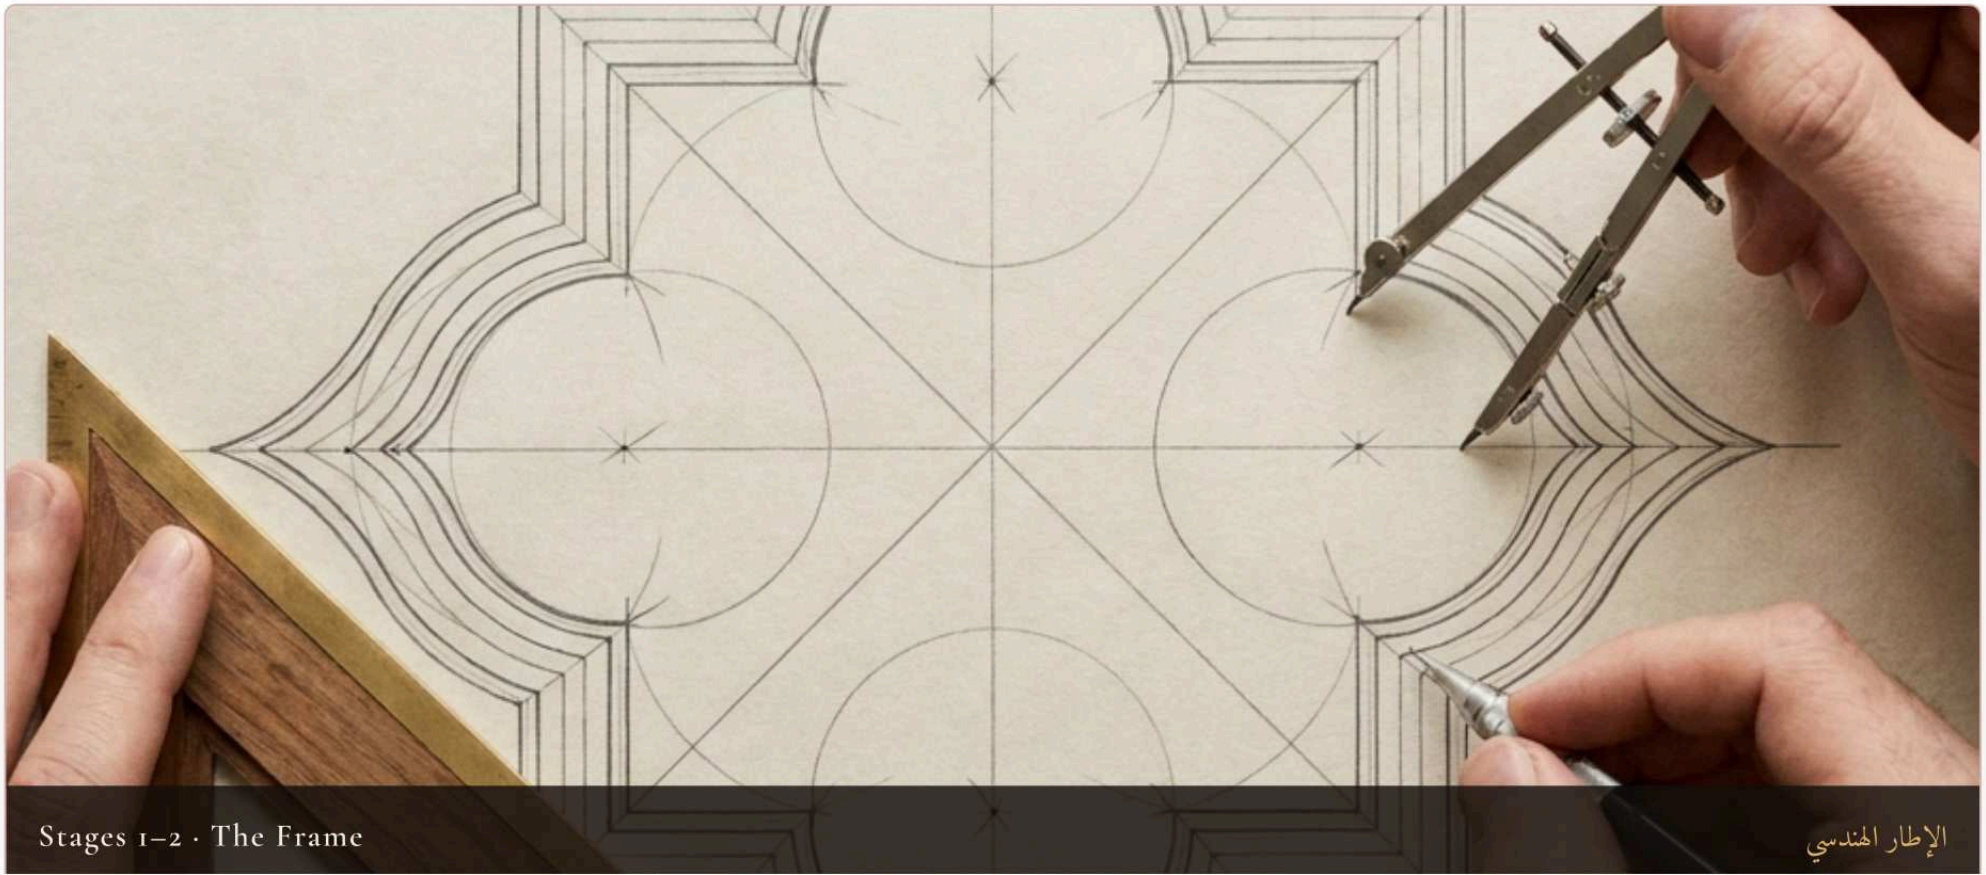

Rough ideas > geometric frame > central icon > ornamental details > ink outlines > typography studies > layout refinement > final mark. Every step is documented; nothing is skipped.

PART III · THE SKETCH — STAGES 1 & 2 OF 9

Rough ideas & the geometric frame

الأفكار الأولية والإطار الهندسي

Nine thumbnails tested different frames, tagine silhouettes and steam gestures. One composition earned refinement — and its frame was then rebuilt properly: an ogee outline constructed on **45° guides**, so the “hand-drawn” emblem is secretly precise.

Stages 1–2 · The Frame

الإطار الهندسي

PART III · THE SKETCH — STAGES 3 & 4 OF 9

The hero icon & its ornaments

الأيقونة البطلة وزخارفها

The tagine was drawn as a **patterned ceramic**, not a flat pictogram — florals on the cone, a diamond band on the lid. Around it, the supporting cast was detailed by hand: star motifs, flower accents, scrolling leaves and the lattice band.

Stages 3–4 · The Icon

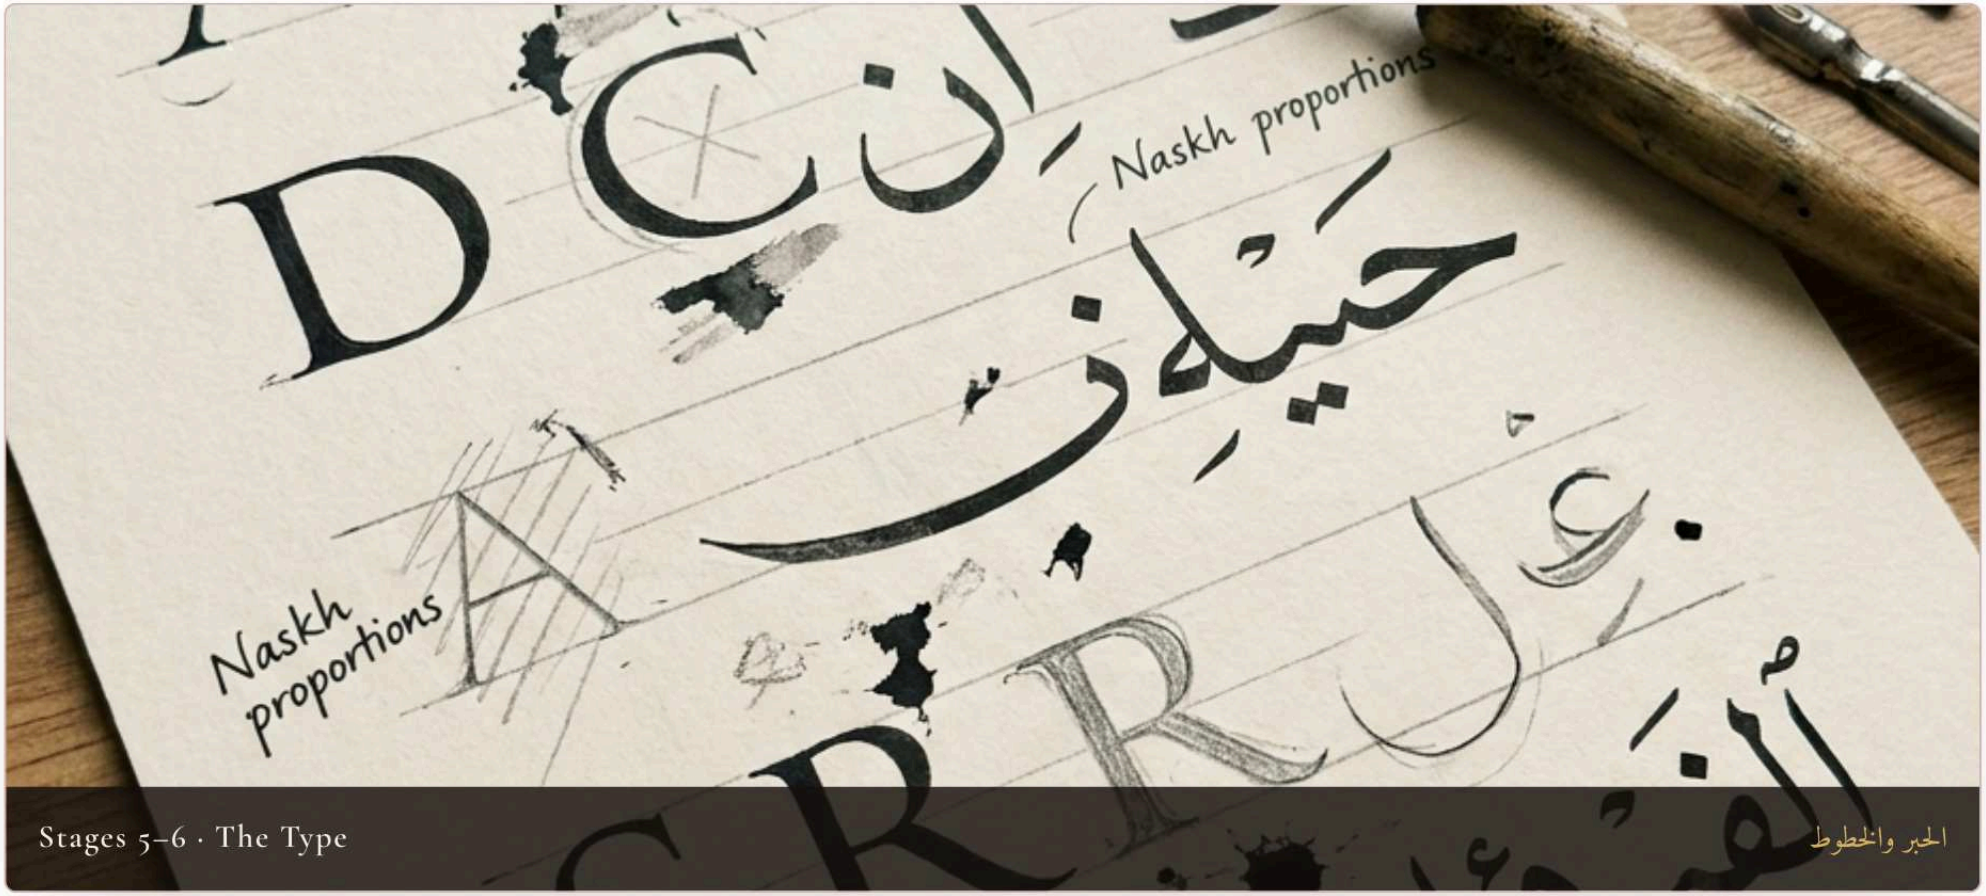

الأيقونة والزخارف

PART III · THE SKETCH — STAGES 5 & 6 OF 9

Ink outlines & typography studies

الحبر ودراسات الخطوط

A clean **ink pass** committed the composition. Then the name was tested letter by letter: three serif candidates for “Dar Albahja”, two naskh weights for دار البهجة مراكش — until both scripts balanced on the same baseline of dignity.

Stages 5–6 · The Type

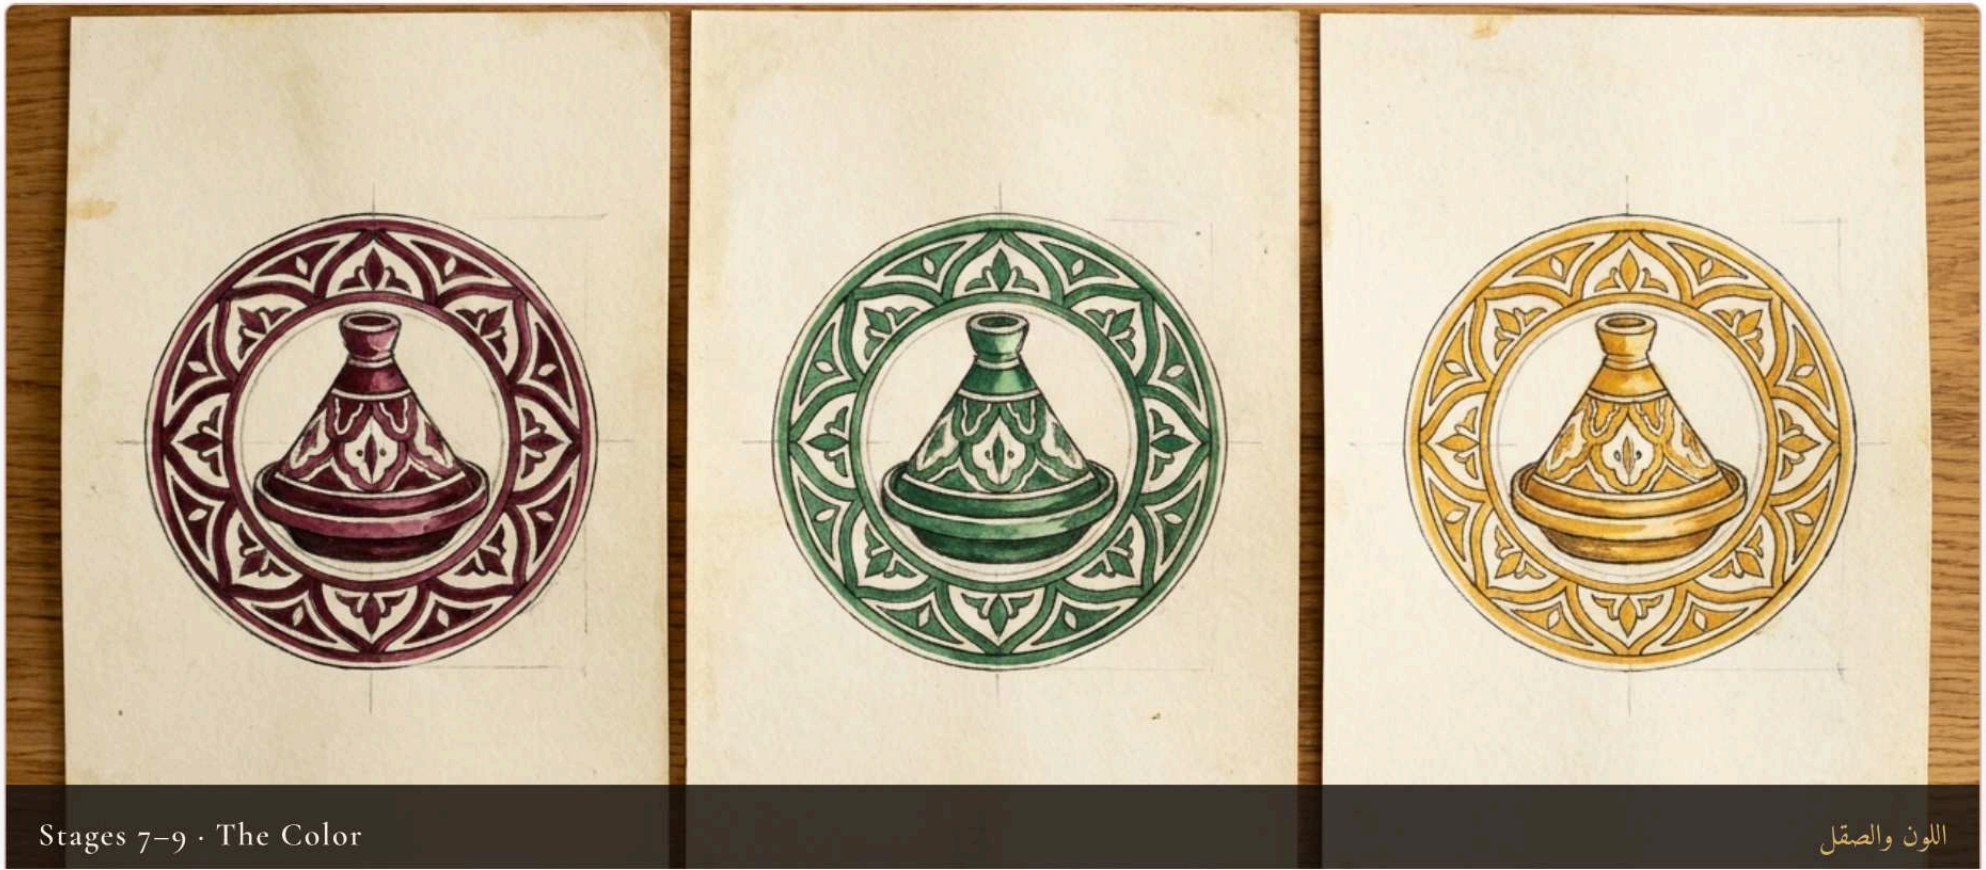

الحبر والخطوط

PART III · THE SKETCH — STAGES 7, 8 & 9 OF 9

Composition, color, and the final pencil mark

التكوين واللون واللمسة الأخيرة

The lockup was composed — emblem above, serif name, gold MARRAKECH, Arabic beneath, tagline seal below. Three single-ink versions tested **maroon, green and gold** separately… then the final refined logo united all three. That mark is waiting for you in the next chapter — **you will assemble it yourself**. ستركّبون الشعار بأنفسكم في الفصل القادم

Stages 7–9 · The Color

PART IV · THE ASSEMBLY — REVEALED

Dar Albahja, assembled

دار البهجة — الشعار مكتملاً

Every element you just merged is present and accounted for: the ogee doorway shelters the patterned tagine; golden steam rises through the arch; khatam stars and the arabesque wreath orbit in zellige rhythm; and the bilingual name anchors it all above the tagline seal.

Nothing here is decoration. **Everything is meaning.**

The complete bilingual lockup

Every line has a meaning

كل خط في الشعار يحمل معنى

The Rising Steam

اليخار المتصاعد

Three hand-drawn curls of golden steam crown the mark – the universal promise of food served hot, alive and generous. It is the brand saying: the kitchen never sleeps.

RISING STEAM

Three golden curls symbolize warmth, freshness and the soul of every dish.

ARABESQUE WREATH

A circular wreath of Moroccan arabesque evokes heritage, hospitality and the art of coming together.

WORDMARK

A refined serif wordmark rooted in tradition, conveying authenticity and timeless craftsmanship.

TAGINE ICON

The heart of our kitchen. A hand-drawn tagine represents slow-cooked tradition, care and generosity.

ORNAMENTAL FRAME

The ogee frame is built on 45° guides with mirrored quadrants, expressing balance, precision and timeless design.

SIGNATURE LINE / MARRAKECH

The city that inspires us. Marrakech anchors our story in place, pride and provenance.

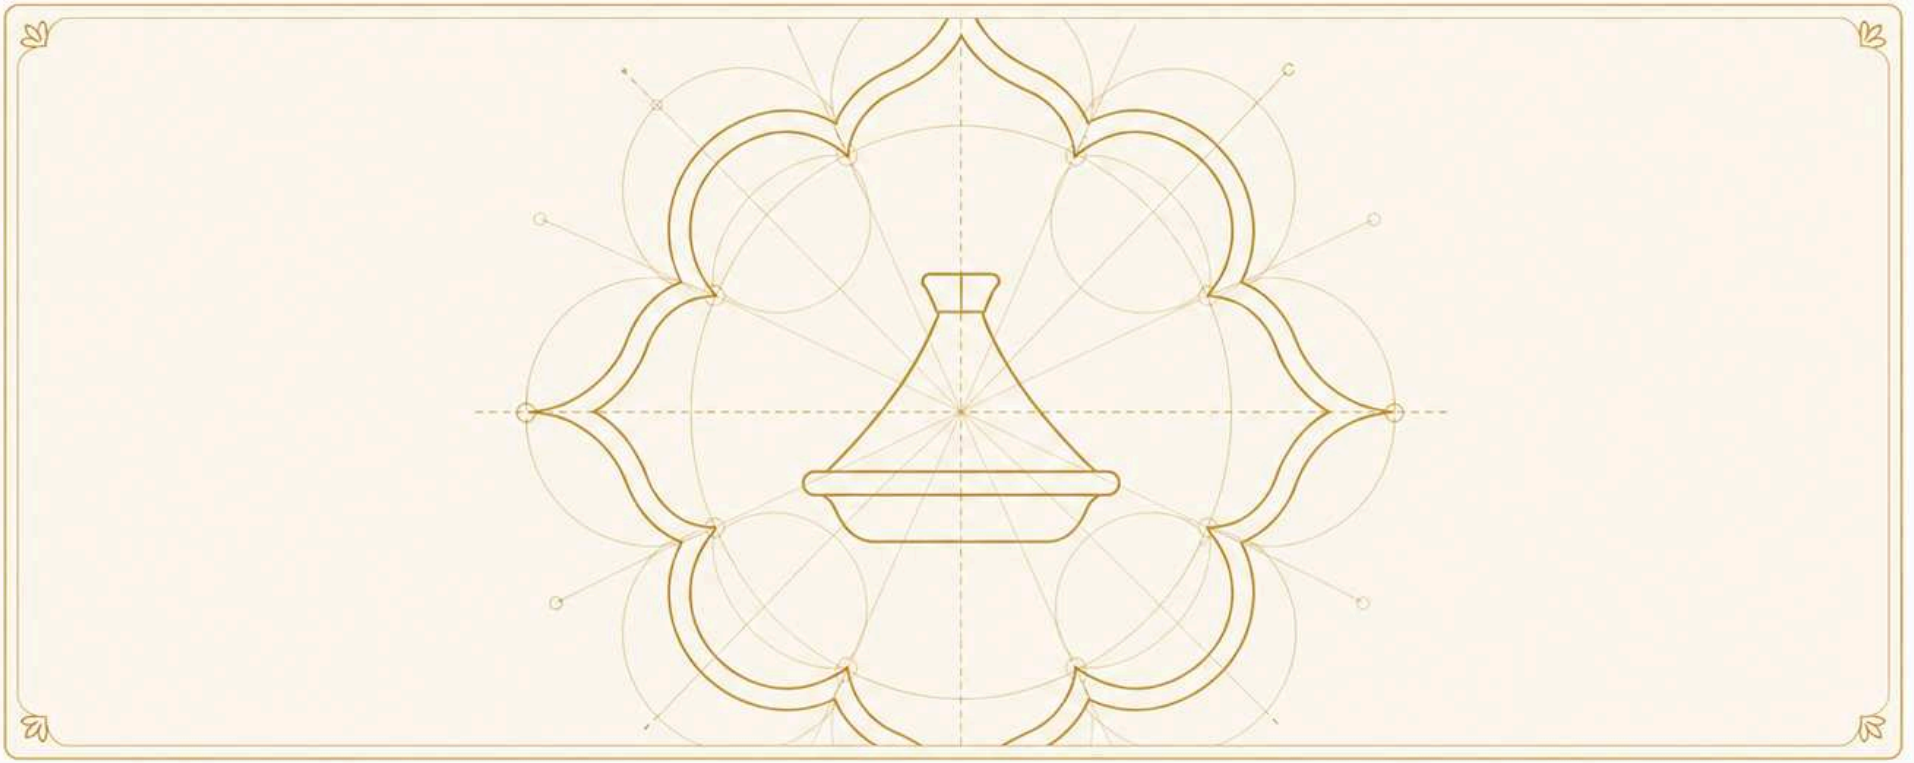

PART IV · THE ASSEMBLY — UNDER THE HOOD

Hand-drawn face, engineered bones

وجه مرسوم باليد وهيكل هندسي

The ogee frame is constructed on **45° guides** with mirrored quadrants; the tagine sits on the exact vertical axis; the stars are placed on radial divisions of the wreath circle. This is why the emblem stays crisp from a wax seal to a five-metre facade.

- ✓ Scales from 12 mm stamp to building signage – قابل للتكبير
- ✓ Symmetrical quadrants — flawless embroidery & engraving – تناظر كامل
- ✓ Clear-space rule: one star-width on all sides – مساحة أمان

The measured palette

لوحة الألوان الرسمية الموثقة

The pencil pigments of Part III, measured into print-ready law: every color specified in **HEX for screens, CMYK for print, and PANTONE for fabric, ceramic and signage** — so the burgundy on a menu matches the burgundy on a uniform apron, forever.

PART V · SYSTEM — HOW THE COLORS LIVE TOGETHER

The 40 · 30 · 18 · 12 rule

قاعدة توزيع الألوان في كل تطبيق

١ **Ivory is the canvas العاجي هو الأساس**

40% — menus, walls, packaging fields breathe in Ivory Sand; the identity never feels crowded.

٢ **Burgundy is the voice العنابي هو الصوت**

30% — headlines, the wordmark, seals and key surfaces speak in Marrakech Burgundy.

٣ **Green is the support الأخضر هو السند**

18% — wreaths, dividers and secondary text carry Medina Green quietly underneath.

٤ **Gold is the treasure الذهبي هو الكنز**

12% — steam, stars and MARRAKECH glint in Saffron Gold. Rare on purpose: scarcity is luxury.

PART V · SYSTEM — TYPOGRAPHY, SCRIPT ONE

The English voice

الصوت اللاتيني — وقار عالمي

PRIMARY · HERITAGE DISPLAY SERIF

Dar Albahja — Aa Bb Gg 0123

High-contrast serif capitals with calligraphic roots — international dignity for the wordmark and headlines. Chosen in stage 6 of the sketch, from three hand-tested candidates.

SUPPORT · GEOMETRIC SANS

AUTHENTIC MOROCCAN CUISINE · MENU · MARRAKECH

Wide-tracked caps for taglines, menus, wayfinding and small print — modern clarity that never competes with the serif.

PART V · SYSTEM — TYPOGRAPHY, SCRIPT TWO

The Arabic soul

الروح العربية — الخط أصل الاسم

ARABIC · NASKH CALLIGRAPHIC

دار البهجة مراكش — أهلاً وسهلاً بكم

Balanced naskh with generous bowls and confident terminals. Arabic here is not a translation — it is the origin of the name, and it reads first for every Arabic-speaking guest.

In the lockup, the naskh line sits directly beneath the serif line at a matched optical weight — **two scripts, one dignity**, neither subordinate to the other. حرفان بكرامة واحدة

PART V · SYSTEM — FOR IVORY & BRIGHT SURFACES

Variations · Light

النسخ الفاتحة — للأسطح المضيئة

Use on Ivory Sand, white paper, bright walls and daylight photography. Full color always; never place the light version on dark or busy grounds. للاستخدام على الخلفيات الفاتحة فقط

Variations · Dark

النسخ الداكنة — لليل والدفعات

Two night voices: an ivory-and-gold engraving for windows, menus and wax seals — and a full-color jewel for illuminated signage and evening interiors.

الاستعمال على الدفّتات الداكنة

One Mark, Three Formats

شعار واحد، ثلاث صيغ للاستخدام

Our identity is built on a single, timeless mark. It adapts seamlessly across every touchpoint while staying true to the spirit of Dar Albahja.

1. PRIMARY VERTICAL LOCKUP

The complete signature for formal use. Ideal for signage, menus, packaging and brand communications.

2. HORIZONTAL LOCKUP

A balanced, space-efficient format. Perfect for website headers, social media, and digital applications.

3. ICON / EMBLEM LOCKUP

A simplified mark for small spaces and subtle applications such as app icons, favicons and stamps.

06

The Mood

الأجواء — العالم الذي تعيش فيه العلامة

FOUR FULL-FRAME ATMOSPHERES · CLICK ANY TO IMMERSE

Logo lockup system

A clear hierarchy for every touchpoint

The identity is designed as a flexible system: the emblem, English wordmark, Arabic wordmark, Marrakech line and signature elements can shift in priority without breaking the brand structure.

ENGLISH-LED HORIZONTAL SIGNATURE

Best for international-facing touchpoints where Dar Albahja needs instant Latin-script recognition.

SYSTEM RULES

- Keep the emblem and wordmark aligned as a fixed unit.
- Use English-led lockups when readability must lead globally.
- Use Arabic-led lockups when the local hospitality story should lead.
- Never stretch, compress, tilt or rearrange the components.

ARABIC-LED HORIZONTAL SIGNATURE

Best for Arabic-first environments, reception walls, cultural placements and local brand emphasis.

Primary vertical signatures

Formal lockups for complete brand communication

The vertical signatures carry the complete voice of the brand. They are ideal when there is enough visual space for the emblem, name, city and cuisine line to breathe as one complete mark.

1. ENGLISH-LED VERTICAL

Primary signature for menus, packaging, signage proposals and formal brand documents.

2. ARABIC-LED VERTICAL

A culturally grounded version for reception use, Arabic campaigns and hospitality environments.

Use when the full story must be present.

Compact wordmark lockups

Simplified formats for tighter spaces

When the full signature is too tall or too detailed, the compact lockups keep the brand recognizable while improving legibility across headers, ribbons, mobile screens and slim signage.

ENGLISH COMPACT LOCKUP

Use for website headers, menu covers, uniforms, social banners and locations where the emblem still supports the name.

ARABIC COMPACT LOCKUP

Use for Arabic-first signage, reception messaging, local promotions and cultural placements that need strong Arabic presence.

PRODUCTION NOTE

- Keep minimum clear space equal to the height of the Marrakech word line.
- Use the compact version only when the full vertical mark loses legibility.

Emblem and wordmark separation

Flexible brand assets for different surfaces

The emblem and wordmarks can work independently when the application calls for a quieter brand moment. Each separated asset must still follow the same color, spacing and contrast rules.

دار البهجة
مراكش
DAR ALBAHJA MARRAKECH

ARABIC WORDMARK

Large-scale Arabic signage, wall lettering and local-language touchpoints.

DAR ALBAHJA
MARRAKECH
دار البهجة مراكش

ENGLISH WORDMARK

Latin-script applications where the name must read clearly from distance.

EMBLEM-ONLY MARK

Small badges, favicons, stamps, wax seals and ornamental brand moments.

Separated marks should never be mixed with unrelated typography or decorative replacements.

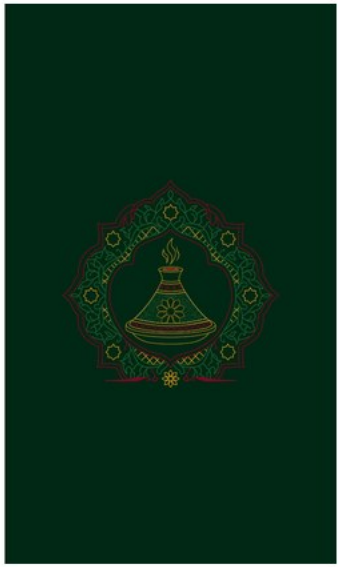

Color and background variations

Contrast rules for print, digital and signage

The logo has controlled color environments so it can stay premium in daylight, night service, illuminated signage and hospitality interiors.

BLACK FIELD

For night signage, digital splash screens and dramatic premium placements.

WHITE FIELD

For brand manuals, menus, stationery and general printed applications.

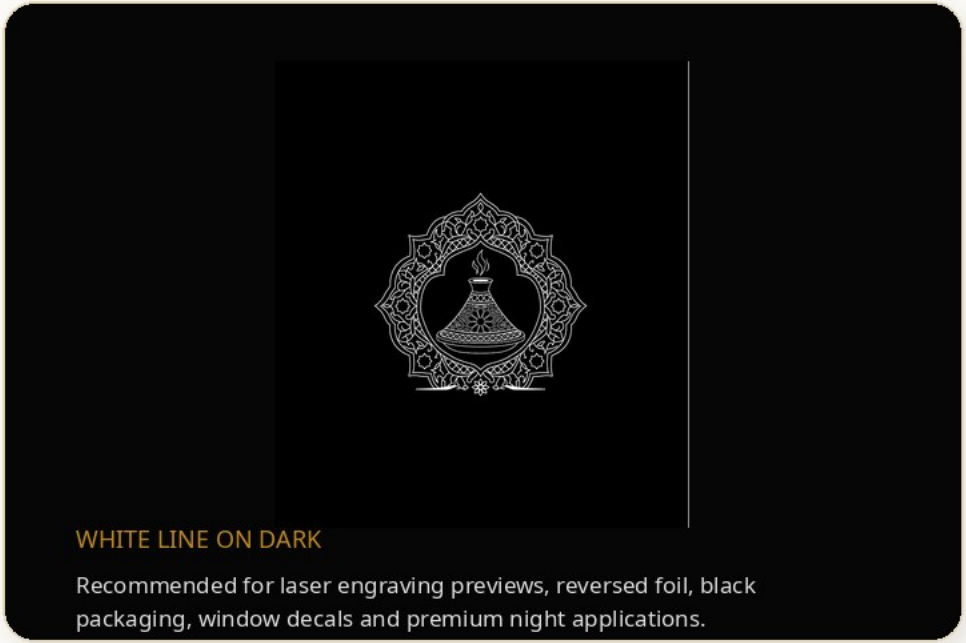

GREEN FIELD

For heritage-led interiors, luxury packaging and secondary premium expressions.

Monochrome production marks

One-color versions for engraving, stamps and fabrication

When color production is not possible, the mark shifts into line-art. These versions protect clarity in engraving, embossing, laser cutting, foil stamping and vinyl applications.

WHITE LINE ON DARK

Recommended for laser engraving previews, reversed foil, black packaging, window decals and premium night applications.

BLACK LINE ON LIGHT

Recommended for stamps, technical documents, single-color print, embossing guides and production proofing.

FABRICATION RULES

- Maintain original line weight - do not thicken the artwork manually.
- Use solid one-color artwork only; avoid gradients and shadows in production files.
- Test the emblem at the final output size before fabrication.

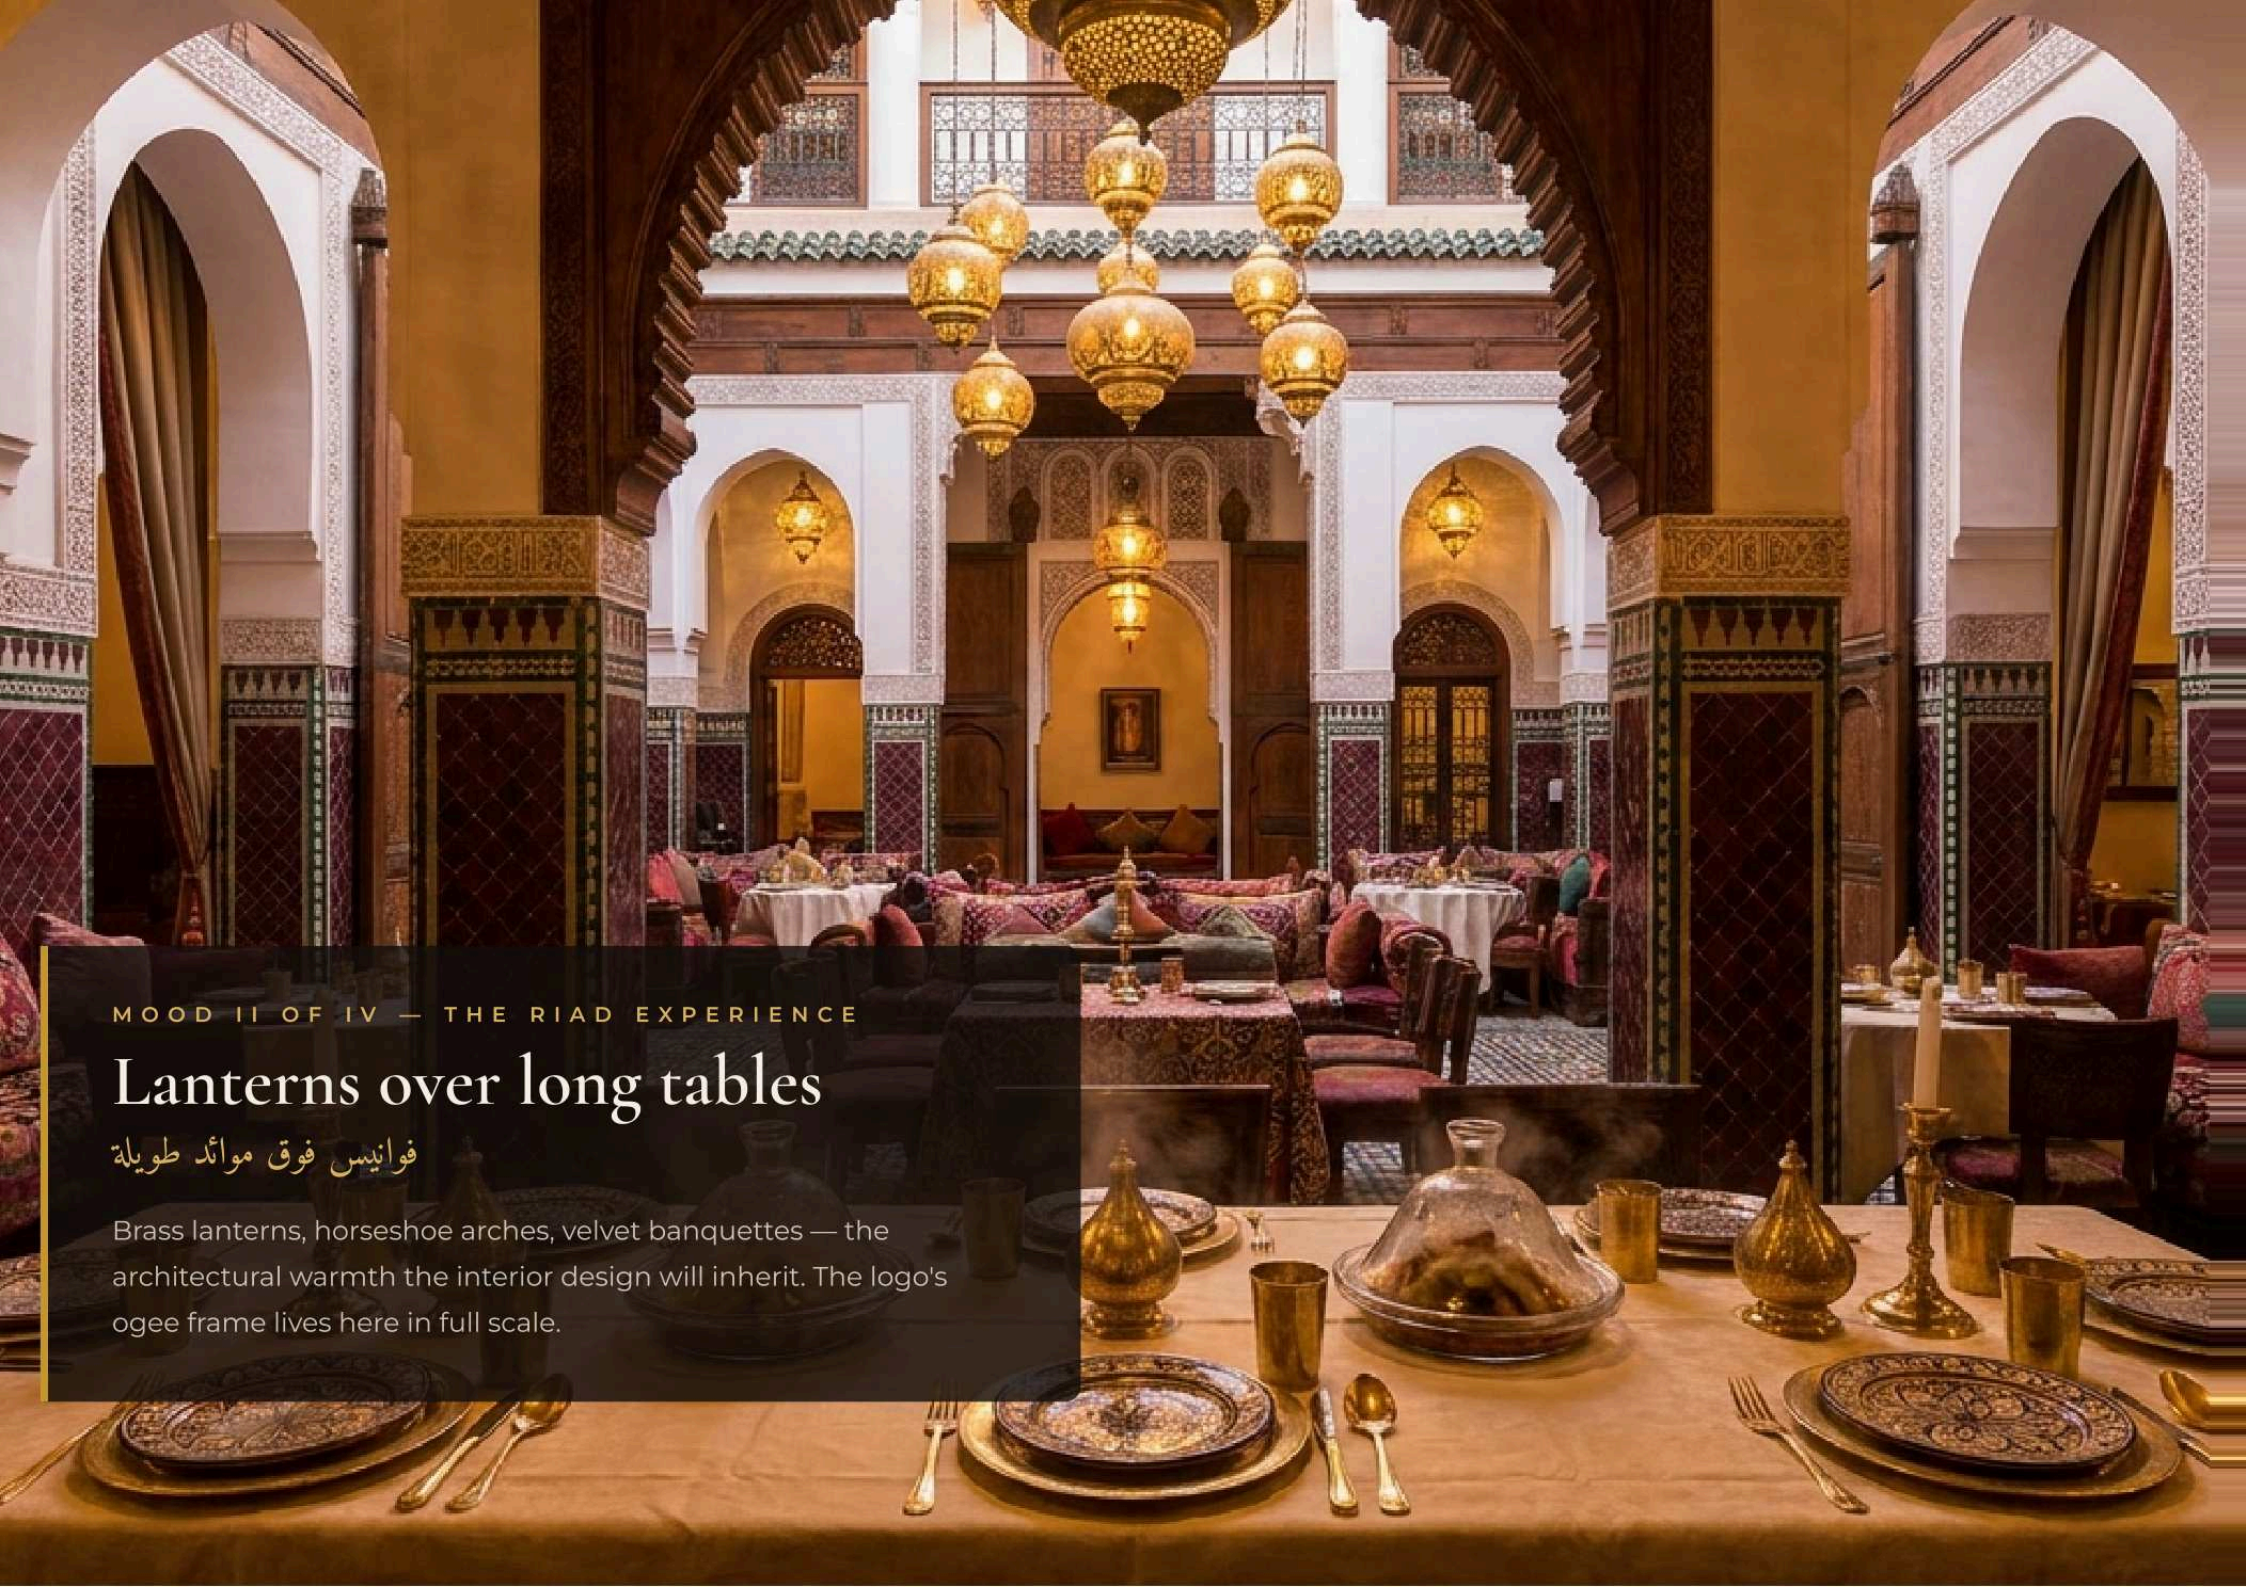

MOOD I OF IV — CRAFT & INGREDIENTS

Zellige, mint & saffron

زليج ونعناع وزعفران

The identity photographed in its raw materials — carved tile, fresh mint, a brass bowl of saffron threads. This is the brand's tabletop truth: real craft, real ingredients.

MOOD II OF IV — THE RIAD EXPERIENCE

Lanterns over long tables

فوانيس فوق موائد طويلة

Brass lanterns, horseshoe arches, velvet banquettes — the architectural warmth the interior design will inherit. The logo's ogee frame lives here in full scale.

MOOD III OF IV — THE HERO DISH

Steam rising from clay

بخار يتصاعد من الطين

The painted tagine, lid lifted, steam curling exactly as the logo draws it. Photography direction: warm side-light, patterned ceramic, saffron threads scattered on linen.

MOOD IV OF IV — THE RITUAL

The golden pour

صبّة الشاي الذهبية

Mint tea poured high from engraved brass — Morocco's signature of welcome. Every Dar Albahja meal ends with this gesture; the brand's gold was measured against this light.
